About the Front Cover:

Niue Ke Monuina

The *niu tupu* (young sprouting coconut) symbolises growth and life that is a gift from nature. For Niue is blessed with its gifts from nature.

The outer shell of the *niu tupu* has been morphed into a water sphere which is delicate symbolizing how much care is needed for the protection of its valued content and maintaining ongoing provision for the future. The *niu tupu* stores within itself all the nutrients and vital elements required for development and growth of a coconut tree. If well cultivated it will be fruitful and serve many generations. This represents sustainable development that leads to prosperity for Niue and future generations. One leaf is yellow representing the sun.

The fishes and birds represent biodiversity. They are a link to how one ecosystem contributes to another, the connection between land and sea.

The hand symbolises heritage, responsibility and connection to the land and sea from our ancestors to us, and from us to future generations.

The hand holds the gifts from nature maintained with different traditional practices and methods handed down through generations as we are caretakers of Niue's *tāoga*. The hand also represents the actions we take towards contributing to sustainable development and our responsibility as caretakers to care for our gift from nature and to nurture it for the future. It signifies working together to protect the people and the environment.

The bracelet and traditional designs on the wrist acknowledges our Polynesian heritage and signifies the connection we have with our ancestors; the land, sea and people signifying our identity as Niuean people.

The ocean ripples symbolise our connection to the world. Niueans are travellers and there are many Niueans who live abroad. The hand holding the *niu tupu* is positioned slightly touching the surface of the water to portray our connection with the world and our friendships with other countries, and partners working jointly with us towards achieving a Prosperous Niue. It also represents the journey our ancestors travelled to Niue and who laid the foundation for us today.

The stars symbolises the Southern Cross; a sign of hope, guidance and direction. The stars remind us how infinite the possibilities are to create wealth but also infinite ways for sustainable development and management and to better conserve the environment towards a prosperous Niue. The stars are reflected off the ocean which is commonly seen on Niue due to its pristine environment.

About the Back Cover:

Tānaki Leveki Puipui Anoiha

The circle magnifies our small island and its limited resources that must be managed sustainably for any development.

The cross section of Niue shows the underground water lens that sustains life on the island.

The hiapo seed represents life, land, air, and ocean that are all precious *tāoga*.

The open ended band represents our people working together to protect the people and the environment. An investment for future generations.

FOREWORD

*“Ko hai au? Ko au ko e tagata Niue.”
“Niue, tui mai....tui-tui....tuiā!”
Monū Tagaloa*

Fakaalofa lahi atu ke he tau tagata oti ha Niue mo e tau Niue nonofo i fafo i Niue.

This Plan is for the People of Niue.

The Government of Niue is committed to building a prosperous Niue for all who wish to make Niue their home and enjoy the Tāoga and lifestyle. The vision is a prosperous Niue. *Niue ke Monuina* is to create opportunities for the Niue people to lead healthy, prosperous lives while protecting the environment and its marine life, flora and fauna.

Prosperity is not just a concept or philosophy that we talk about. It is a real and living lifestyle we aspire to achieve for ourselves and the fauna and flora we are responsible for; where the world sees Niue as a self-sufficient, proud and growing nation and a guardian of its people and the environment they live in.

This is about creating wealth using the resources that have been bestowed upon our country through investments in our sovereign assets including tourism, fisheries, water, noni and vanilla. Subsistence crops are important for our food security and will support tourism but at the same time, fauna and flora must be protected so that they sustain us in the long term and therefore they must be managed in a manner that will enable them to thrive just as much as people are allowed to thrive.

The Plan has seven National Development Pillars which are: Finance and Economic Development, Good Governance, Infrastructure, Environment, Social, Tāoga Niue and the Private Sector. These seven pillars are the key foundations in supporting economic growth leading Niue as a growing nation towards prosperity.

Not all of the pillars are expected to be achieved in a single year, but provide the strategies upon which priorities will be set towards prosperity. Each government department and agency will have priorities aligned to the Plan and will be measured annually through the national budget process.

The government alone cannot make *Niue ke Monuina* happen. In order for this Plan to work a whole of Niue approach will spearhead the strategies in the Plan in a consultative process which includes everyone and will continue to include everyone.

This is through our mission: *Working Together to Protect the People and the Environment* and our principles *Tānaki Leveki Puipui Anohia*. It is not just for the Government but all sectors of society. It is about working together in a coordinated and well planned manner to ensure the populations good health, well-educated children and a strong and growing private sector supported by a robust and well managed public service and infrastructure.

Our forefathers overcame many hardships and challenges and we look back at the foundations they have built and it is our duty as custodians of Niue to maintain our strong national identity through our tāoga with responsible, smart, simple logical strategies and solutions for our people.

Niue is our Tāoga, our birth right. There is only one Niue and as guardians and custodians of Tāoga Niue let us all work together for prosperity for Niue and for our future *tagata Niue*.

Kia fakamonuina mai he Atua a Niue Fekai, Nukututaha, Nukutuluea.

Premier of Niue

INTRODUCTION

The Niue National Strategic Plan is a high level roadmap setting out the Niue Government’s direction and priorities for Niue to act at all levels to reach its vision for Niue. It provides broad goals and strategies that provide strategic guidance towards prosperity.

The achievement of *Niue ke Monuina* is underpinned by seven national development pillars. Each national development pillar has strategies with aims identified to achieve these strategies. Each strategy is also the outcome that is being sought. In this Plan, the pillars contain the strategies in the format contained in the box below:

The details for these strategies will be contained in sector and subsidiary policies and delivery plans. Each government agency will have a corporate plan that aligns to the pillars and strategies.

Careful and strategic allocation of resources will be prioritised so that the strategic initiatives, activities, targets and delivery plans can be achieved through the national recurrent budget and other external sources such as development partners. The government agency corporate plans will have a budget, where the source of funds are identified; whether recurrent budget or external funds, and annual reports and the national budget process is the mechanism through which progress of the Plan is measured.

This Plan provides the direction for the nation of Niue towards prosperity. It will not be easy and there will be challenges along our journey.

In times of adversity, in particular before going into battle our ancestors would lay down a challenge or *takalo* to excite and motivate the spirit of the warriors. It is in the spirit of our forefathers and *aga motu* that the challenge is laid for this Plan Niue ke Monuina:

Niuean Takalo

OUR VISION

Niue ke Monuina – A Prosperous Niue

OUR MISSION

TANAKI ~ LEVEKI ~ PUIPUI ~ ANOIHA

Tanaki – to gather, collect and store

Leveki – to guard and watch over

Puipui – to protect and look after

Anoiha – for times to come

“Working Together to Protect the People and the Environment”

Our mission is to build a prosperous Niue responsibly and sustainably, to meet social and economic needs and development aspirations while preserving Tāoga Niue culture and heritage values, and protecting our environment.

LIVING THE VISION

Niue will continue to be a sovereign nation in free association with New Zealand. Its unique culture, based on Tāoga spirituality, language, heritage and social values, will thrive and be celebrated. Her people will continue to enjoy a high standard of living with a unique island lifestyle and a stable and responsible government.

Niue's unique, unspoilt and pristine coastal environment will be internationally recognised as a beacon for its sustainable and responsible environmental practices and this is how the Niuean environment will be protected.

A vibrant private sector will accelerate economic growth and increase employment and investment opportunities for all residents of Niue.

The government's main fiscal priority is to ensure that there are sufficient resources available for the necessary basic rights of all residents. These include health, education and infrastructure and the provision of other essential government services. The government will continue to ensure that all residents will have access to the basic services.

The tourism industry will continue to flourish and with ancillary activities will be the major contributor to the economy and the catalyst for economic development. The residents and tourism industry will continue to be serviced by regular airline services from New Zealand and services within the region will be explored. Honey and nonu production will be major exports with the development of niche markets for local sale.

Niue will continue to enjoy cordial international relations particularly with her constitutional partner New Zealand, Pacific neighbours, traditional partners and new friends, and valued investment partners. It will also continue to enjoy and participate in regional and international fora. Government will continue to establish further diplomatic and international partnerships with other nations. The journey towards prosperity will continue to build the foundation for the future of Niue.

OUR PEOPLE AND POPULATION STRATEGY

This Plan is for the people of Niue.

The people of Niue are Niue's biggest resource and asset and who seek a good quality of life supported by access to good social services and recognition of its cultural values.

The people of Niue aspire to lead prosperous, healthy and safe lives connecting Niueans at home and abroad to their culture, their land and their communities. Building strong and stable communities will attract others to live and visit Niue to see why we choose Niue as our home. To see what the country has to offer. It aims to encourage Niueans abroad and others to live on Niue.

This Plan is the population strategy to retain people to enjoy the lifestyle on Niue, and in particular having regard to the employment opportunities and levels of remuneration in New Zealand with an aim of reaching at least 80% of these levels.

Niueans living abroad are important and the cultural bridge with those living in Niue will continue to feature and will complement efforts in other sectors to rebuild Niue's population. We also encourage the entry of short term tourists, visitors, workers and business people, and long term residents who will contribute to Niue's economic, social and population aims and objectives.

OUR VALUES / GUIDING PRINCIPLES

Our values for the achievement of 'Niue ke Monuina' are through *Working Together to Protect the People and the Environment*. Our guiding principles drive all policies, plans, goals and strategies regarding the Plan in terms of strategic planning and implementation:

- Aligned to *Niue ke Monuina – A Prosperous Niue*
- Keeping it simple and clear and achievable
- Having efficient and effective systems in place
- Working through collaboration, clear communication and consultation for cohesive and coordinated implementation
- Building effective relationships to support the development pillars
- Acting respectfully, responsibly, transparently and being accountable
- Adopting smarter work practices through resource allocation and use
- Maintaining high standards with realistic outcomes and remaining outcome focused
- Ensuring sustainable and manageable development strategies
- Ensuring sustainable healthy environment strategies
- Promoting gender equality and human rights through equal opportunities
- Taking ownership of this Plan in working together to protect the people and environment

PRIVATE SECTOR

A prosperous and skilled island
nation, underpinned by a thriving
and entrepreneurial private sector

FINANCE AND ECONOMIC DEVELOPMENT

SUFFICIENT FINANCIAL RESOURCES ARE SECURED, AND RESPONSIBLE FISCAL MANAGEMENT IS PRUDENT, SUSTAINABLE AND IN SUPPORT OF DEVELOPMENT STRATEGIES

Financial stability is fundamental for Niue to develop into a prosperous nation by having sufficient financial resources available in order to continue to meet its obligations to the people.

The Government's financial resources are derived from taxation, government trading activities, sovereign assets and development partners. These resources are used to fund the Government's annual recurrent costs which include personnel, asset maintenance and replacement, and economic development initiatives. The Government will continue to be debt free.

Niue's principal development partner is New Zealand and through their constitutional relationship, New Zealand provides the necessary economic and administrative assistance to Niue.

MAXIMISE BENEFITS FROM NIUE'S RESOURCES SUSTAINABLY, SUPPORTING PRIVATE SECTOR DEVELOPMENT, TARGETING TOURISM, AGRICULTURE AND FISHERIES SUPPORTED BY SAFE, RELIABLE, AFFORDABLE MODERN INFRASTRUCTURE

FISCAL POLICY

Good public financial management for revenue, procurement and debt recovery, and support to the private sector. Better management, coordination and implementation of projects.

As a nation with a small population base, the demand on the available resources is very high and improved coordination and implementation of all public and development partner funds, including project management, will improve the delivery of all services.

EXTERNAL RELATIONSHIPS

Strong working partnerships. Simplified bureaucratic processes for faster access to funding, reporting and implementation.

Niue's strong constitutional partnership with New Zealand will continue and is the model upon which diplomatic partnerships and strategic alliances with the wider regional and international community will be fostered.

MACRO-ECONOMIC POLICY AND INVESTMENT

Investment in sovereign assets, and strengthened trading activities.

Government trading activities and revenue collection will be strengthened. As a growing nation Niue will promote a strategic economic development agenda focused on priority areas where Niue holds a comparative and competitive advantage, such as tourism, fisheries and agriculture. The government will also target assistance to the private sector in these priority areas.

Tourism

Sustainable growth in tourism with a visitor experience of cultural richness and community.

Agriculture

Economically viable and sustainable industry development.

Fisheries and Marine Resources

Sustainable and responsible investment in marine and fisheries resources.

GOVERNANCE

GOOD GOVERNANCE IS PRACTISED AT ALL LEVELS OF SOCIETY

We are committed to good governance principles of accountability and transparency so that our people are fully informed and consulted. This will promote stability and confidence across all sectors. We will also adopt fair and consistent decision making.

GOVERNMENT SERVICES

Working for the people by being professional, and responsive, with fair and smarter work practices within a safe and healthy working environment.

The Public Sector Transformation reform will continue to provide government services more effectively, efficiently and with greater economy, accountability and transparency, with a structure that is more appropriate to deliver services, including regulatory functions, to serve the needs of the people.

NATIONAL SECURITY

Residents and visitors live in a safe and secure environment.

The safety and protection of residents and visitors, property and the environment will continue to be a priority within border and domestic processes.

HUMAN RESOURCE DEVELOPMENT

Well skilled workforce and ongoing training opportunities for lifelong learners.

We will have a skilled workforce with training opportunities for continued upskilling to modern practices.

NATIONAL EMERGENCY RESPONSE AND RESILIENCE

A strengthened emergency management sector with a well informed public who are prepared for adverse effects of disasters from natural hazards and emergencies.

Residents and visitors are well informed, prepared and resilient to adverse effects of natural and manmade disasters. This will ensure continuity of critical infrastructure and greater confidence to all.

PUBLIC INFORMATION AND COMMUNICATION

A well informed public and information available.

Statistics, data collection, and archiving are important tools for the people, economic development and planning. Such information, for example statistical information and weather information will be publicised and readily available to the public.

JUSTICE

A fair and accessible justice system

We are a society that respects the rule of law and the justice system, and this includes our cultural and traditional justice systems. We will also continue to meet our commitments to international standards and frameworks.

INFRASTRUCTURE

SUSTAINABLE USE AND MANAGEMENT OF KEY INFRASTRUCTURE THAT IS CLIMATE PROOF AND RESILIENT

All residents will have access to and enjoy good quality and affordable housing, electricity, water, transport, telecommunications, internet services, broadcasting services, ports facilities and road networks. Key infrastructure will support other sectors and the safety and protection of people, property and environment will continue to be a priority.

The resilience of critical infrastructure will be increased by strengthened risk and climate proofing, consequence and emergency management planning to ensure continuity of services.

INFORMATION COMMUNICATION AND TECHNOLOGY (ICT)

Quality affordable postal, ICT and broadcasting services.

ICT development is important for Niue in the changing technological environment and connection to the world. Enabling quality and reliable ICT allows Niue to remain connected to the world and business. This will also assist with those wishing to use Niue as a base for operations.

ENERGY

Continuous and reliable power supply transitioning to efficient renewable energy sources.

Energy security to Niue encompasses everyone's access to modern, reliable and safe energy services. The government aims to have cost effective and affordable energy services. Energy generation, distribution and consumption will become more efficient, costs minimised, and the energy infrastructure in Niue is climate-proof and based on a low carbon approach.

WATER

Access to 24 hour water supply and safe potable drinking water

Maintain safe extraction of the groundwater system and increasing capacities in rainwater catchment and household water tanks to ensure there is sufficient supply of freshwater during emergencies and build resilience to climate change.

TRANSPORT

Quality, safe, secure and reliable ports and roading

Provide and maintain safe, secure and reliable transport infrastructure and services at international standards and prepared to respond to national disasters and emergencies.

CONSTRUCTION

Well constructed buildings and structures

All buildings to be built to required building, safety, health and sanitation standards with minimum adverse impacts on the environment and resilient to the impacts of natural hazards.

ASSET MANAGEMENT

Manageable maintenance programmes for consistent and reliable services for the public

Investment in key infrastructure and equipment with well planned and funded maintenance programmes to ensure ongoing infrastructure development to give confidence and assurance to the public. This will provide safe and healthy infrastructure and working environments.

SOCIAL SERVICES

A HARMONIOUS AND HEALTHY LIFESTYLE IN A THRIVING, EDUCATED AND SAFE COMMUNITY THAT HAS ACCESS TO A WIDE RANGE OF QUALITY SOCIAL SERVICES

HEALTH

Healthy lifestyle choices with well supported health services, and food and nutrition security that is sufficient, safe, affordable and accessible.

Healthy, happy residents who have access to quality health services to enjoy a good quality of life. Healthcare and quality health services will support a healthy population that makes healthy lifestyle choices.

Food and nutrition security is essential for life and is vital to health and wellbeing of the people and plays a very important role in society, culture, customs and traditions.

EDUCATION

Quality, nurturing education services for happy, healthy and vibrant children.

To provide a quality balanced education service for children within a nurturing secure learning environment - one that enables children to be confident, competent learners and communicators who are healthy, happy and responsible members of the community and who make a valued contribution to the school and society.

NATIONAL, SECTOR AND VILLAGE DEVELOPMENT

Working together for national, sectoral and village development development.

Families and communities are important to the Niuean society and support will continue to children, youth, women, senior residents, people living with disabilities, churches, sports and other social groups while promoting gender equality and equal rights.

SPORTS AND RECREATION

People who actively participate in sports and recreation activities.

Sports and recreation activities will contribute towards a healthy lifestyle and foster social interactions, and participation at regional and international competitive levels is encouraged and supported to reflect government investment in this area.

SPIRITUAL VALUES

Our spiritual values are upheld and respected.

Niue is a strong Christian nation that respects all religious values.

LAND

Land availability for all.

The people of Niue have a strong cultural connection to the land as custodians, and land is an integral part of family and village life, as well as national development. Access to land for domestic, residential and economic development while ensuring sustainable land practices is important for everyone.

ENVIRONMENT AND CLIMATE CHANGE

SUSTAINABLE USE AND MANAGEMENT OF NIUE'S NATURAL RESOURCES AND ENVIRONMENT FOR PRESENT AND FUTURE GENERATIONS

Our aim is to protect Niue's environment to be a pristine and healthy nation.

Niue is an environmentally friendly nation in which conservation and the sustainable management of biological resources support all of the living community and ecosystems.

We are all responsible for the management and sustainable use of the environment and natural resources and this begins at home.

We will work with national and regional partners and the global community to unlock the sustainable environmental development potential for Niue and to contribute to addressing the challenges of climate change.

WASTE MANAGEMENT

Residents and visitors manage waste to protect the environment with minimum impact to public health.

For Niue to be recognised as a clean and healthy nation in the Pacific. Waste management includes all waste and waste reduction, reuse and recycling, systems for waste collection and disposal will be managed safely and sustainably.

NATURAL RESOURCES

Protection and conservation of Niue's natural resources through responsible, sustainable use and management for food and nutrition security that is sufficient, safe, affordable and accessible.

Sustainable use and management of the land and soil is paramount to protection and conservation of the forests and marine resources.

BIODIVERSITY

Protecting biodiversity, maintaining sufficient remaining habitats and ecosystems to support the population of all species and their genetic diversity.

Conservation, protection and management of natural habitats and ecosystems by ensuring sustainable natural resources through diverse land and marine biodiversity. Traditional knowledge, conservation practices and culture to be maintained and strengthened for future generations.

POLLUTION

Reducing risks and protecting natural resources on land, marine and coastal resources from the impacts of pollution

Prevention and minimisation of risk of damage to land, marine and coastal environments and resources from pollution, and to hasten the recovery of the environment and resources damaged by pollution through appropriate responses and management.

CLIMATE CHANGE AND NATURAL HAZARDS

A safe and resilient Niue to impacts and challenges of climate change.

Having an integrated approach towards increasing Niue's resilience to climate change by strategically addressing risk and vulnerability will be done by creating a well planned and funded platform to adapt, mitigate and manage disaster risk through partnerships at the nation, regional and international levels.

SUSTAINING CLIMATE AND WEATHER SERVICES

Providing credible and timely weather and climate services.

Weather and climate services are fundamental for the sustainability of the environment, infrastructure and socio-economic development of Niue.

PROMOTE, STRENGTHEN AND INTEGRATE TĀOGA NIUE CULTURAL HERITAGE, LANGUAGE, VALUES AND IDENTITY

Tāoga Niue is the culmination of all elements that symbolise the *tagata* Niue through its identity, Vagahau Niue, culture and heritage. Recognising the importance of Tāoga Niue for the well-being of the *tagata* Niue and the need to preserve the Niuean culture and heritage is part of the strong connection to living on Niue.

**ALL RESIDENTS AND VISITORS EMBRACE AND RESPECT
TĀOGA NIUE**

To develop, sustain and enhance the sovereign and ethnic identity of the people of Niue through their own distinctive language, customs and traditions, arts and craft, history and the environment.

**TĀOGA NIUE ACTIVELY INTEGRATED FROM THE HOME
TO THE NATIONAL LEVEL**

Vagahau Niue, the arts, customs and traditions and history will be enhanced with the support of key stakeholders at all levels. This will be reflected by the ownership of Tāoga Niue, namely the magafaoa, village and national as well as government sectors.

**THE CULTURAL BRIDGE WITH NIUEANS ABROAD IS
STRENGTHENED**

Niueans living abroad are important and the cultural bridge with those living in Niue will continue to feature and will complement efforts in other sectors to rebuild Niue's population. This is Niue's link to its cultural diaspora.

PRIVATE SECTOR

A PROSPEROUS AND SKILLED ISLAND NATION, UNDERPINNED BY A THRIVING AND ENTREPRENEURIAL PRIVATE SECTOR

To ensure Niue has an enabling environment to support and encourage private sector development and growth, the private sector will be supported to:

- Create more paid jobs and more opportunities for establishing and growing businesses;
- Develop and attract the skills and investment to support the country's economic growth;
- Have infrastructure that is highly efficient and maintained, making it easier and faster to conduct business and connect with the world;
- Attract visitors and residents who want to experience cultural richness and community; and,
- Create the ability to further invest in social services and local amenities – improving the quality of life for all who wish to make Niue their home.

To achieve our vision we have developed a plan based on three aims:

GET THE BASICS RIGHT FOR BUSINESS

Ensure Niue's business legislative and administrative framework is business-friendly and key resources are available such as land and premises for commercial purposes.

This aims at ensuring that businesses face an environment conducive to business growth.

ENHANCE INVESTMENT IN PEOPLE TO IMPROVE SKILLS AND CREATE A LOCAL WORKFORCE

Produce a skilled and responsive labour force through enhancing access to capacity building and technical assistance, and build an entrepreneurial culture.

This ensures that businesses have an available supply of relevant skills to enable them to operate and expand. It aims to ensure that Niue has an inclusive and adaptable labour market that not only meets the demands of a growing, diversifying private sector but also provides opportunities for a better quality of life for those people who make Niue their home.

CREATE AND CAPITALISE ON MARKET OPPORTUNITIES:

Assist businesses to benefit from tourism growth.

This takes a more active stance on business growth. Market opportunities are identified and actively encouraged by Government, the Niue Chamber of Commerce and other stakeholders.

STRATEGIC FRAMEWORK - HOW WE WILL DO IT

Sector Plans

The Niue National Strategic Plan outlines the broad sector strategies aimed at achieving the seven national development pillars. In these broad sector strategies, reference is made to the need to develop more detailed sector plans linked to the Plan and strategic framework. Sector and corporate plans will be directly linked to the Plan, and the Plan provides direction to ensure alignment and consistency with the seven national development pillars.

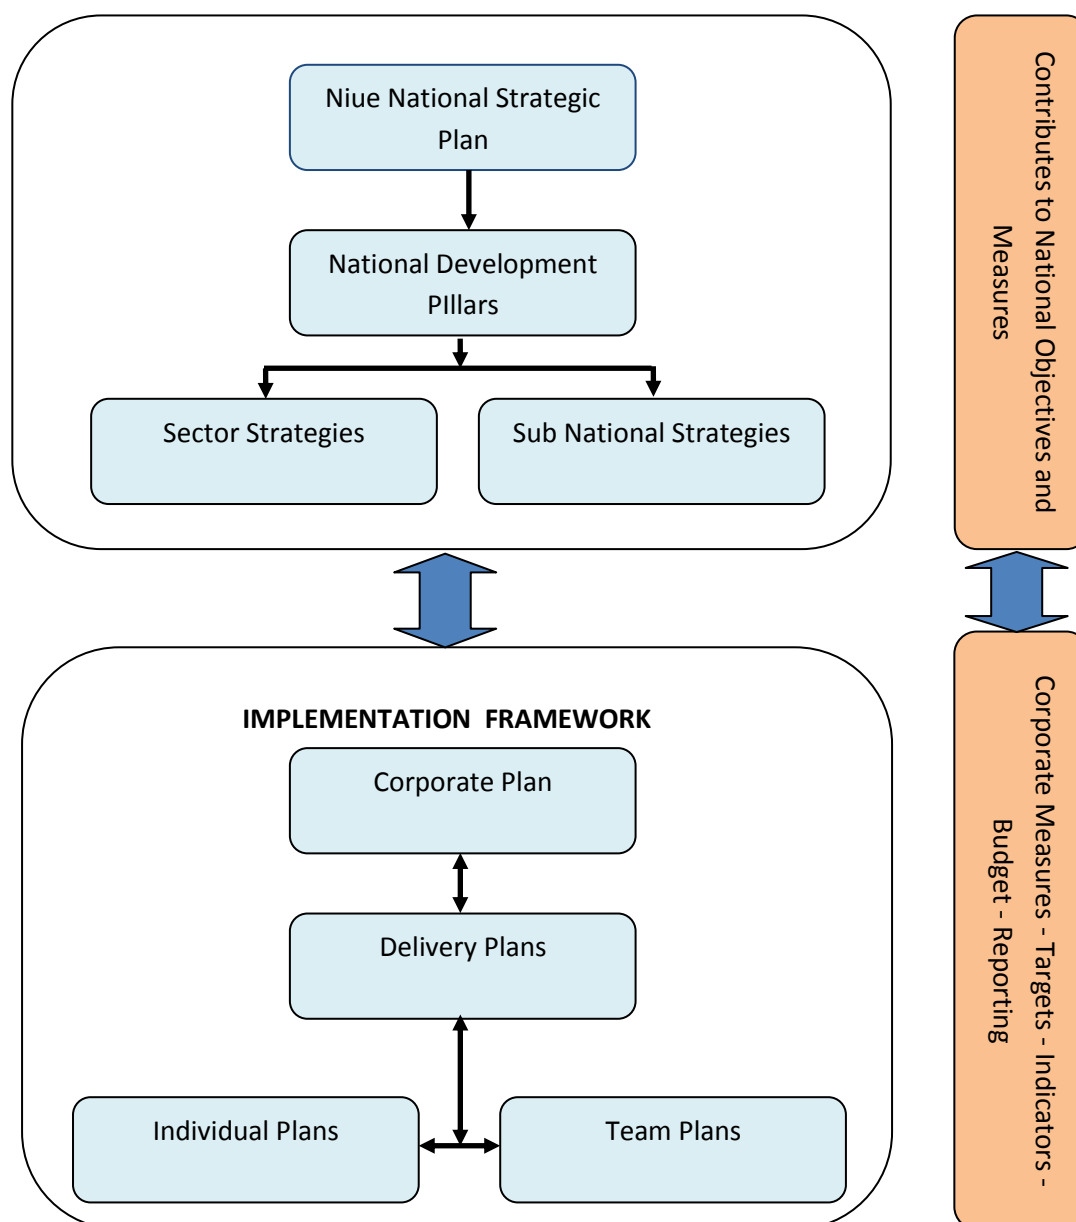

Departmental Corporate Plans

Government departments and central agencies will have Corporate Plans supported by their annual budget in accordance with the priorities set by Cabinet.

National Budget and Department Implementation Plans

Annual department budgets with multi-year budget frameworks will have short, medium and long term priorities under each pillar and strategy.

The implementation framework under each sectoral and corporate plan will contain outcomes-based measures through targets and indicators, and annual reports will measure progress against each pillar.
